

Learn more about Angela

Angela Butts, Clinical Mental Health Intern

Angela Butts was born and raised in Washington, D.C. She has over 15 years of experience in various areas of healthcare, receiving her undergraduate degree at Trinity Washington University. She relocated to Miami, Florida to study at Florida International University where she received a MBA in Healthcare Business Management. She is now completing her Masters in Counseling with a double specialization in Clinical Mental Health and School Counseling. Her goals are to inspire

others to live their best lives and she is passionate about helping others advance to their fullest potential!

Hand selected by her post-graduate program to work with refugee children & their families, Angela has a keen understanding of how the environment shapes our outlook on life as well as self-image. She values the ability to pair epigenetic & neuroscience testing with her traditional talk therapy style when creating treatment plans for her clients who have experienced trauma because of trauma's innate impact on one's biology. An asset to the WBH Counseling & Therapy team, Angela's compassionate & competent approach to therapy is a great resource to anyone seeking to optimize their mental health.
