Annide Jules, LMSW

Highly experienced counselor in cultural diversity and individuality, empowering you to thrive! As a wholistic counselor, I specialize in guiding individuals towards unlocking their potential, overcoming hurdles, and embracing life's journey. Let's navigate your obstacles together, paving the way for a fulfilling and balanced life.

After decades in the public school system as a licensed clinical social worker, Annide has worked with a wide variety of mental health complexities ranging from autism, to ODD, to ADD/ADHD. Understanding that families are a large component of behavioral wellness, she takes a comprehensive approach when working with clients and their loved ones and helps to create tools to “unlearn” habits or beliefs that have not served them well. Through the inclusion of neuroscience & epigenetic testing, Annide’s approach to counseling is truly wholistic and applicable to a wide variety of clients and complexities.
